ASSISTANT DIRECTOR/CURRENT INTELLIGENCE

SUBJECT : Bolivian Situation

1. The Director has received from Dr. Milton Eisenhower a request for agency views on the situation in Bolivia with particular reference to whether the present government is now, or is likely to become, Communist-dominated. 2. The Director's reply should reflect the best coordinated view of all interested shops. DD/P is designating appropriate representatives from his side, and this is to request that you name one man each to work on a tight working group to examine the materials submitted and frame a suitable reply to Dr. Eisenhower. Initially at least, the project should not be discussed outside the agency, although anything already tabled for the forthcoming NIE-104 may naturally be used.
